Education

M.Sc. Physics 09/2022 – Present

ETH Zurich, Switzerland

- O Current GPA: 5.61/6.00 (CH)
- O Focus: Q. Error Correction, Q. Information Processing, Machine Learning
- Selected past & current coursework: Advanced Q. Algorithms, Probabilistic Artificial Intelligence, Q. Error Correction, Q. Information Processing 1 & 2, Trapped Ions.
- Partly financed by the Rayer scholarship Dr. Mas-Fraissinet, France.

B.Sc. Physics 10/2018 – 09/2022

LMU Munich, Germany

- O GPA: 1.28/1.00 (DE).
- Theoretical physics electives.
- Mainly financed by the Rayer scholarship Dr. Mas-Fraissinet, France.

Medical Degree 10/2017 - 02/2018

LMU Munich, Germany

O GPA: N/A. Not completed.

Baccalauréat 09/2014 – 07/2017

Lycée Sud des Landes, St-Vincent-de-Tyrosse, France

O GPA 16.00/20.00 (FR). Graduated with the highest possible honors at the age of 16.

Research Experience

Master's Thesis 09/2023 – Present

IBM Quantum, Zurich, Switzerland

• Project Repo (still private)

- o "Quantum error correction with analog measurement information decoders."
- Writing soft information decoders in C++ & Python. Analyzing performance on real hardware.
- Future work: Analyzing performance-information trade-off of soft-information decoders. Working on decoders for ArcCircuits.
- O Skills: C++, Python, IBM Quantum hardware.
- O Supervisors: Dr. James Wootton, Dr. Joseph Renes, Prof. Renato Renner.

Semester Project 06/2023 – 08/2022

ETH Zurich, Switzerland

6 Report Link

- o "Towards a tunable beamsplitter interaction between two GKP-encoded qubits."
- Experimental project on the motional interaction of GKP-encoded qubits in trapped ions.
- Designed and simulated trapping potentials and experimental testing of the found potentials.
- O Skills: Python, ion trapping hardware.
- Supervisor: Moritz Fontboté-Schmidt, Martin Wagener, Dr. Stephan Welte, Prof. Jonathan Home.

Bachelor's Thesis 04/2022 – 09/2022

Max-Planck-Institute for Quantum Optics, Munich, Germany

Report Link

- o "Space-efficient quantum computation of fermionic and bosonic Gaussian systems."
- O Introduction to various theoretical research areas (entanglement simulation with Python, entropic uncertainty principles, tensor networks) by Dr. Adrian Rubio.
- O Investigated the time and space complexity of fermionic and bosonic Gaussian circuits.
- O Skills: Python, complexity theory, bosonic quantum computation.
- O Supervisors: Dr. Adrian Rubio, Prof. Ignacio Cirac.

Teaching

Teaching Assistant in Linear Algebra I

09/2023 - Present

ETH Zurich, Switzerland

- O Teached Linear Algebra for 1st year B.Sc. CS students in a weekly in-person class.
- O Lecturer: Prof. Bernd Gärtner, Prof. Afonso Bandeira.

Teaching Assistant in Physics II

02/2023 - 07/2023

ETH Zurich, Switzerland

- \circ Teached Continuum Mechanics and Thermodynamics for 1st year B.Sc. EE students in a weekly in-person class.
- O Lecturer: Prof. Atac Imamoglu.

Laboratory Supervisor

10/2021 - 02/2022

LMU Munich, Germany

 Supervised the physics electrodynamic laboratory course for five groups of 20 medicine students.

Work Experience

IP Law Intern 04/2022

Bardehle Pagenberg, Munich, Germany

O Drafted argumentations for ongoing patent lawsuits. Familiarized with litigation examples. Supervisor: Sebastian H.-E. Müller.

Assistance Coordinator

02/2018 - 10/2018

IMA, Munich, Germany

Accident and breakdown assistance coordinator in regions including DE, CH, FR, and UK.

Competitions

Quandela Hackathon: LOQCathon 2.0

11/2023

Sorbonne Université, Paris, France

? Project Repo

- Won overall 1st Prize of the competetion with my team (3000€).
- O Topic: Quantum reservoir computing using only linear optical elements.

Qiskit Hackathon 06/2023

World of Photonics, Munich, Germany

O Topic: Graph theory-based approach to encode highly entangled states on IBM hardware.

ETH Quantum Hackathon

05/2023

ETH Zurich, Switzerland

- O Won 2nd Prize of the IQM challenge with my team.
- Topic: Using symmetry-informed quantum machine learning.

Extracurricular Activities

Student Mentor 09/2023 – 02/2024

ETH Physics Department Student Mentoring

• Mentor for a group of seven first-year BSc students. Monthly meetings to discuss the student's progress and problems.

Residence House Speaker

10/2021 - 09/2022

Studentenwerk Munich, Germany

- O Coordinated administrative tasks for a 300-student residence house.
- Organized student events; mediated disputes and conflicts; responsible for sensible issues.

Student Mentor 10/2021

LMU Physics Department

 Mentor 40 new LMU physics students to assist them in commencing their studies in the first months of their studies.

Technical Skills and Interests

Technical:

- O Python: qiskit, pymatching, stim, scikit-learn.
- o C++: OpenMP, pybind11, MLPack, eigen, armadillo.
- o Docker
- o LaTeX

Languages: German (native), French (native), English (C1: IELTS 8/9)

Interests: Calisthenics, Weightlifting, Volleyball, Chess.
